PROJECT DESCRIPTION: Wat Kham Pramphong project in Sakon Nakhon. Thailand, includes pyramid hospitals for terminal cancer patlents and an abbot's residence, blending traditional Thai medicine and modern healthcare for healing and comfort.

PRODUCT: ATIS & WE 70

DESIGN CONCEPT:

The Wat Kham Pramphong project in Sakon Nakron, Thailand, includes two pyramid-designed Thai Traditional Medione Hospitals tailored to the needs of terminal cancer patients. The pyramid-shaped architecture seamlessly blends traditional Thai medioine, herta remedies, and modem medical practices. Within this project, a pyramid-snaped abbots residence has been crafted to provide an improved environment for the alling abbot. This design careluny balances semi-open and semi-closed spaces, ensuring an abundance of natural light and ventilation. The residence consists of a sleeping house and a guest house interconnected by a pathway, promoting a harmonious atmosphere that aids in healing. The overall concept centers on creating a healing space that prontizes patient well-being and comfort while integrating the wisdom of Thai traditional medicine and modern healtcare practices, making d a sanctuary lor those in need.
