The House Of 3 Courtyards

COMPANY NAME: SILPI Architects

COUNTRY:

India

PROJECT DESCRIPTION:

The House of 3 Courtyards is a two-story tropical residence located in Paravoor, spanning 3,605 sq. m of land with a spacious floor area of 1,919 sq. m, designed to fulfill Mr. Darious' desire for a tropical home.

PRODUCT: WE PLUS & WE 70

The House of 3 Courtyards was designed for Mr. Darious, who sought a tropical home in Paravoor, a place steeped in Kerala's rich history as the heart of Muziris. This residence embodies a dream of recapturing the essence of childhood, of dwelling amidst dappled shadows and the crunch of fallen leaves. At its core lies a central courtyard, a cherished memory, and an integral part of the home's design. The life of the house revolves around these courtyards, shaping them to suit their lifestyle and adapting themselves in return. The result is a home that becomes a cherished memory, evoking nostalgia and longing. In both concept and reality, it is a home within a garden. TOSTEM finishes seamlessly blend with the architectural composition, and the window system perfectly complements the design.
