his family. Situated on a spacious 1880 sq. m. site, the residence boasts a generous built-up area of 575 sq. m. (6188 sq. ft).

PRODUCT: WE Series

## DESIGN CONCEPT:

The Stoic Wall House exemplifies tropical architecture, seamlessly connecting indoor and outdoor spaces using TOSTEM sliding doors and windows. Its efficient design prioritizes ventilation and circulation, ensuring a refreshing atmosphere throughout. Strategically placed sliding doors and windows facilitate optimal airflow, promoting natural ventilation and maintaining a cool interior. The inclusion of courtyards within the house acts as ventilation shafts, allowing air to circulate and creating a pleasant breeze. TOSTEM sliding doors and windows in these areas enhance the airflow, maximizing the benefits of natural ventilation. This well-crafted design harmoniously blends the indoor and outdoor environments, allowing residents to immerse themselves in the tropical surroundings while enjoying a comfortable and well-ventilated living space. The Stoic Wall House is a testament to the seamless integration of architecture and nature, providing a tranquil and refreshing oasis.
