TOSTEM

GRAND PRIZE WINNER

ARCHITECT:
Monica Tiaradewi & Josephine Fitria

PROJECT NAME: ST House

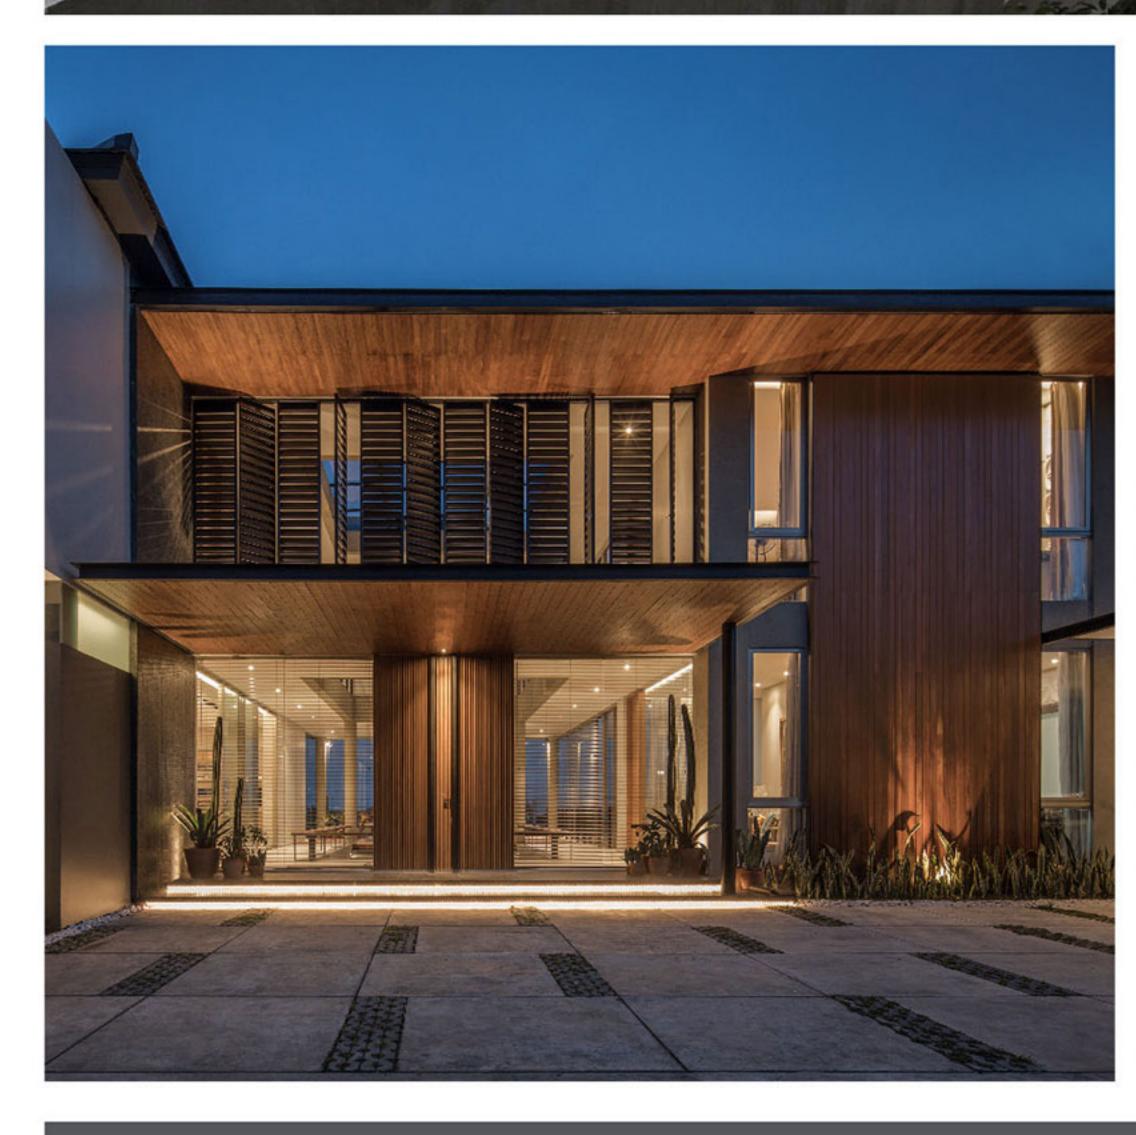

COMPANY NAME:
Ruangrona

COUNTRY:

Indonesia

PROJECT DESCRIPTION:

A house located in an exclusive residential complex with a beautiful view towards the city of Bandung.

Located on a sharply contoured land of around 12 meters, ST-HOUSE was designed

by RUANGRONA, with main consideration to open the main area of this house with

steep, with the aim to slightly reduce cut and fill in the land. Because of the extremely

high contours, we want to create a variety of different spatial experiences so that resi-

lots of openings so that residents get 360 degrees vista towards the city. The inner

courtyard is being designed as a response to the contours of the land which is so

dents do not feel the ups and downs that are so tiring in their daily lives.

DESIGN CONCEPT:

COLOR: Shine Grey
